SUMMARY OF REVISIONS

On-the-Job Training for Energy Efficiency and Clean Technology - Program Opportunity Notice (PON) 3982

Revised May 2023

The following changes have been made to PON 3982:

- Added new eligible energy efficiency and clean technology category: Electric Vehicles (manufacturing only)
- Specified that worker candidates must not be a past participant in the PON 3982: On-the-Job Training Program.
- Clarified that the program is not intended to support the hiring of highly credentialed, experienced workers for senior-level or management positions. Applications must demonstrate clear clean energy skills gaps that will be addressed through a robust training plan to be eligible for funding.
- Established that in cases where revisions to an application are requested by NYSERDA, the updated document(s) need to be uploaded to the NYSERDA Portal within 10 days of the original outreach.
- Added reference that the Business Application now includes PON 4772: Climate Justice Fellowship Program.
- Updated the minimum duration of work eligible for reimbursement from 5 days to 35 hours.
- Clarified that applications for funding under this PON are ineligible if other sources of funding, including but not limited to, NYSERDA contracts, federal or other state and local grants, or other incentives have already been awarded for the same staff or project. Added stipulation that funding from other NYSERDA contracts cannot be used for cost share associated with a new hire supported through the On-the-Job Training Program.
